## WHY UNICOSMOS ?

- We appreciate the concerns about the student's transition into new communities and support to overcome their apprehensions.
- We are the only school in India which provides International education program, complemented with student's native curriculum.
- We have a blend of Internationally experienced and trained faculty from different countries, catering to Japanese, Korean & Western students.
- We facilitate our students develop fluency in both English and their native language.
- We foster inter-cultural awareness and understanding, as well as academic excellence, through our specially designed learning program.

## WHO WE ARE

A school for expatriate students – Toddlers to Grade XII – Unicosmos is a 'Not-for-Profit Organisation' with the aim of promoting world class education in India. Unicosmos is a learning space where expat students receive International education blended with their native culture, values and ethos. Our prime objective is to prepare students for the changing world of tomorrow in a completely safe campus with ultra-modern facilities. Our unique program is designed to ensure that all students stay rooted to their cultures and values irrespective of the global region where they grow up. The entire learning program is designed by experienced and qualified International team of pedagogy experts and student psychologists.

At Unicosmos, we help the student to prepare for the challenges that come with transitions in a globalised world and allow him/her to grow at his/her own pace. The state-of-the-art IT and security controls ensure that each student learns in a completely safe environment and the availability of a wholesome International cuisine creates a home-like environment; this coupled with the care of our team of paediatricians and psychologists helps each student to grow and learn in a friendly environment which is low on threat and high on challenge.

## IB Mission Statement

The International Baccalaureate® aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

## Unicosmos Mission Statement

Unicosmos is an international school having the mission to nurture innovative thinkers who are empathetic, principled and reflective, equipped with critical thinking skills essential for thriving in an ever-changing world. Learners rooted in their culture and yet living and flourishing in the world with an international mindset.

## OUR VISION

To create a futuristic learning environment, rich in creativity & values, where students from all nationalities are nurtured to develop a deep sense of responsibility, towards self and larger community.

- Transport facility for students with high-tech security features.
- Conveniently located, off-Golf Course Road, Gurgaon.

**Mr G.C. Mittal**

MESSAGE FROM OUR FOUNDER

In my professional experience as an educationist, I have minutely witnessed the impact of education integrated with regional values on the children of all ages in several parts of our country. It is indeed true that when education is blended with students' own culture and belief system, learning comes alive and becomes dynamic. This is the foundation of learning for life! Unicosmos is a very thoughtful approach of amalgamating various cultures, value systems and providing a unique experience to each child who is away from the direct interaction with his/her own country. Getting quality education with a touch of their native practices is the premise which has led to the development of the educational philosophy at Unicosmos.

MESSAGE FROM OUR BOARD MEMBERS

**Ms Noriko Nasukawa**

UNICOSMOS is an International School which has a teaching concept, which is unique to each individual child. Let's take an example of a Japanese child, with this teaching concept the child will preserve his/her identity as a Japanese child, and learn Japanese value system and Japanese way of thinking, etc. At the same time, he/she will be given education on how to be flexible in adopting today's global world, and to become a global citizen. Offers special curriculums to realize the same, and also make Japanese child be fluent in English as well as in Japanese. As UNICOSMOS is located in Gurgaon, it is an advantage for those who live in Gurgaon and nearby places. You can save lots of commuting time to the school everyday!

**Ms Kate Berger**

UNICOSMOS School in Gurgaon understands the needs of the students who are relocating to India. UNICOSMOS understands not just their cognitive and academic needs, but also recognizes their important socio-emotional state and adjustment needs. The school's counsellor and teachers endeavour to connect with the child, from the first interaction with the child, on a day-to-day basis. They gauge the child's feelings, inhibitions and insecurities and work as a team to provide solace through their conversations and interactions. They design personalised activities which are of interest to the child and involve them in meaningful ways. This helps to keep the child engaged and eager to participate in life at school and home.

**Ms Sangeeta Krishan**

Unicosmos brings together three age-old Indian values into its philosophy: 'Atithidevo bhava' (Guest is like god), 'vasudhaiva kutumbakam' (the world is one family) and 'karma yoga' (performing all work carefully, guided by compassion). In today's global world, as young professionals move into Gurgaon to experience the vibrancy of the world's fast growing economic hub, Unicosmos provides a wonderful learning environment for their loved ones... safe and secure, caring and nurturing, professionally managed, 'high on challenge and low of threat' to enable each child learn at their own pace. Unicosmos has a clear focus of providing true education to the young ones of multiple nationalities.
